Farm buildings and structures are exempt from the Virginia Uniform Statewide Building Code (USBC). In order to qualify for this exemption, the structure must be used for a specific purpose which is directly related to an operating farm. The Code of Virginia §36-97 and **Section 102.3.6** of the 2006 edition of the USBC defines a farm building/structure as follows:

Farm Structure (building): A building or structure not used for residential purposes, located on property where farming operations take place, and used primarily for any of the following uses or combination thereof:

1. Storage, handling, production, display, sampling or sale of agricultural, horticultural, floricultural or silvicultural products produced on the farm;
2. Sheltering, raising, handling, processing or sale of agricultural animals or agricultural animal products;
3. Business or office uses relating to the farm operations;
4. Use of farm machinery or equipment or maintenance or storage of vehicles, machinery or equipment on the farm;
5. Storage or use of supplies and materials used on the farm; or,
6. Implementation of best management practices associated with farm operations.

Such buildings or structures lying within a flood plain or in a mudslide-prone area are subject to flood proofing and/or mudslide regulations. This exemption does not apply to any building or portion thereof used or operated as a restaurant and licensed by the Board of Health.
